## DT CEILING MOUNT [DT-CM] - ON CEILING PROJECTOR MOUNTING BRACKET

DT Ceiling Mount is an on ceiling projector mounting bracket featuring very low installation profile, easy mounting interface and integrated adjustment.

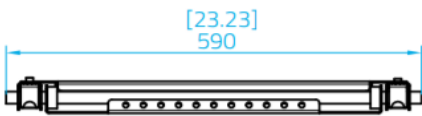

The DT Ceiling Mount has an extremely low installation profile which allows the projector to be mounted close to the ceiling which minimises lost height and aesthetic impact.

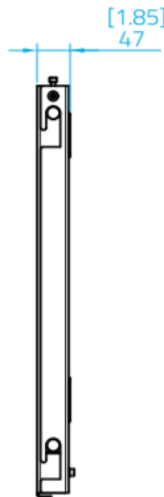

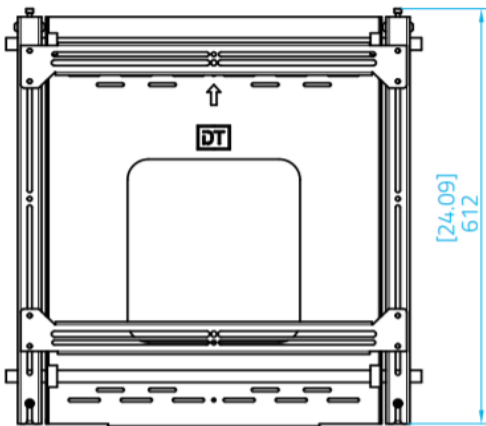

The Ceiling Mount is a two part solution with a fixed ceiling plate and a universal fitting projector mount plate. This makes it extremely easy to mount even very large projectors to the ceiling.

The integrated adjustment makes it straightforward to align the projector on the DT-CM with the projector screen. Adjustable locking nuts enable 10mm of rotation in either direction.
